It will readily be seen that a moderator or any other election official will have no means of determining which two of the three democratic candidates any person voting a straight democratic ticket intended to vote for, so there will be nothing left to do but there will be nothing left to do but throw out the entire vote for schoolcommittee candidates.

presentation at the Breed theatre last evening.

Borderland gives two complete plots for the price of one, presents two separate sets of characters—and offers the star three differing characterizations. The supernatural is cleverly used to chance the dramatic effect. The story tells of a young wife, tempted to desert her husband, who is led back from the brink of a mistake by the advice of the spirit of an ancestor who had suffered from a similar error in 185d.

Miss Ayres gives a delicately differentiated bit of work as the jazzy, med ern Edith Wayne, the hoop-skirted Dor. Backet and the wistful spirit. Pau Powell directed this story by Beulal Marie Dix. Included in the cast are Milton Sills. Casson Ferguson, Fred Huntley, Bertram Grassby, Dale Fuller and an interesting group of child players, including Frankie Lee and Mary Jane Irying.
